

# TECH FIESTA 2019

## Design Schematics: Conceive The Circuit

### Event Focus

Due to the recent boom in the domestic as well as worldwide Electronics Industry it has become extremely important for a technical graduate to know and have hands-on experience about circuits and basic functioning of Electrical & Electronic instruments and devices. By participating in this event, the participants can expect to gain valuable experience about circuitry and on the other hand can also brush up their knowledge on the basics, which always comes in handy in today's world of competition. The best part of this event is that students from all branches can participate in the event as the questions ought to be set from the very fundamentals of Electrical and Electronics.

### Event Rules

The General rules are as follows:

- For participating in the event, candidates need to form teams. However, single participants are allowed.
- Regarding the team size, the maximum is two (2) candidates per team.
- All members of a team must be from the same college.
- All the participants ought to bring their college IDs in original, failing which they shall be barred from participation.
  - Candidates would be allowed to participate only if they have completed the registration process. The candidates need to produce the Registration Token along with the College ID card (as mentioned above).
- Use of Electronic gadgets or any kind of circuit diagrams are prohibited inside the venue.
- Resorting to unfair means by the candidates shall result in immediate disqualification from the event.
- The decision of the Event Head/Co-ordinator shall be final and binding in all regards.

The event is scheduled to be conducted over two days and have 3 rounds in total.
