

TECH FIESTA 2019

THE STARTUP: AN INVITATION FOR THE BUDDING ENTREPRENEUR

Event Focus

For a developing country like India, where people have potentials, it is very important to create an own business model to have a self-sustained economy. Keeping this in mind, we setup this event, where we provide a platform for students with ideas and proposal of startup in their mind. Here, we are inviting the startup proposals from students, who have some outstanding ideas in their mind. Apart from prizes, a student can expect to get an overview of their ideas. They will be able to analyze their own ideas, and may find domains for improvement and further research. Student will be able to polish their presentation skills and develop some ideas regarding feasibility of their proposals. It is an effort to bring the **flame out of the spark of ideas** in the mind of budding Engineers.

Event Rules

- **Individuals** or **Groups with maximum of 4 members** are allowed to participate.
- The members should present their own **unique content**.
- In case of any references, students are requested to clearly **give proper citation** for that.
- If a student found to have **plagiarism** in the presented content like power-point presentation slides, written documents etc., the students/ groups are likely to be **disqualified** after giving a warning in the preliminary phase.
- The students **can have mentors**. It is essential to acknowledge them during the presentation.
- Any kind of **misbehavior will not be tolerated** during any phase of the event. This may lead to disqualification. It is requested to be polite and humble.
- **No computers** will be provided by college for preparing presentations. Participants have to manage their own computers for presentation.

The main event will be conducted in **one day** having **two rounds**. Prior to this, there will be a process of **Proposal submission**.
